FROM DROP OUT TO DOCTOR

“Shifting my mindset changed the trajectory of my life. I went from drop out to doctor; from poverty to plenty; from a job I hated to a rewarding career.”

MIAMI, FLORIDA, April 12, 2016— Local inspirational author, educator, ordained minister, and training and development expert will debut his inspirational book, **“Get Out of the Dumpster! A True Story on Overcoming Limitations”** at a book signing reception at Devieto Italian Fusion Restaurant in Doral, Florida on April 23, 2016 from 7:00 p.m. to 9:00 p.m.

In his first book, **“Get Out Of The Dumpster! A True Story on Overcoming Limitations,”** Dr. Padin narrates how he went from being a high school dropout, working for pennies hauling garbage by hand out of a dumpster, to become a successful educator, author, entrepreneur, executive coach and spiritual leader. The book refers to **“Dumpster Moments”** as self-imposed limitations everyone faces —fears, doubts, confusion, economic problems, emotional turmoil, and toxic relationships, and how these limitations can be conquered.

By following the principles laid out in the book, Dr. Padin went from being a high school drop out to earn academic credentials which include a Master of Divinity from Western Theological Seminary in Holland, Michigan; an MBA in

Organizational Management from Carlos Albizu University, Miami campus; and a Doctorate in Education from Nova Southeastern University in Fort Lauderdale, Florida. Dr. Padin is the dean of corporate university and an adjunct professor.

Dr. Padin's mission is all about helping people overcome their "Dumpster Moments" and go beyond their limitations. An award-winning speaker, his story has inspired many to believe in themselves and recognize their God-given potential.
